Notes:

The world total and the totals for regions, organizations and income groups in table 6A.1 are estimates, based on data in table 6A.3. When military expenditure data for a country are missing for a few years, estimates are made, most often on the assumption that the rate of change in that country's military expenditure is the same as that for the region to which it belongs. When no estimates can be made, countries are excluded from the totals. The countries excluded from all totals in table 6A.1 are: Afghanistan, Angola, Benin, the Republic of Congo, the Democratic Republic of the Congo (DRC), Iraq, Libya, Somalia and Yugoslavia.

Regional totals are presented only when based on country data accounting for at least 90% of the regional total.

Totals for geographical regions add up to the world total and subregional totals add up to regional totals.

Totals for regions and income groups cover the same groups of countries for all years, while totals for organizations cover only the member countries in the year given.

The country coverage of income groups is based on figures of 1998 GNP per capita as calculated by the World Bank and presented in its *World Development Report 1999/2000* (International Bank for Reconstruction and Development and Oxford University Press: Washington, DC, Sep. 1999).
