

Appendix 8C. Register of the transfers and licensed production of major conventional weapons, 2001

BJÖRN HAGELIN, PIETER D. WEZEMAN, SIEMON T. WEZEMAN and NICHOLAS CHIPPERFIELD

The register in table 8C.1 lists major weapons on order or under delivery, or for which the licence was bought and production was under way or completed during 2001. Sources and methods for the data collection are explained in appendix 8D. Entries in table 8C.1 are alphabetical, by recipient, supplier and licensor. 'Year(s) of deliveries' includes aggregates of all deliveries and licensed production since the beginning of the contract. 'Deal worth' values in the comments refer to real monetary values as reported in sources and not to SIPRI trend-indicator values. Conventions, abbreviations and acronyms are explained below the table. For cross reference, an index of recipients and licensees for each supplier can be found in table 8C.2.

‘Contract not yet signed’ is used in the comments field when sources indicate that preliminary agreements have been signed, but when the final contract has not yet been signed.

‘Status uncertain’ is used in the comments field when sources are contradictory about the (continued) existence of the reported deal.

‘Unknown’ is used in cases where it has not been possible to identify a supplier or recipient with an acceptable degree of certainty.

Table 8C.2. Index of suppliers of major conventional weapons and their recipients and licensees, 2001

This index lists recipients and licensees by suppliers of major weapons on order or under delivery, or for which the licence was bought and production was under way or completed during 2001. The types of weapon involved in the transfers can be found by cross-referencing with the register of the transfers and licensed production of major conventional weapons in 2001 in table 8C.1. Entries are alphabetical, by supplier, recipient and licensee. 'Unknown' is used in cases where it has not been possible to identify a supplier or recipient with an acceptable degree of certainty.
