REGIONAL REPORT ON ARMS EXPORTS IN 2013

BELGRADE, 2015

REGIONAL REPORT
ON ARMS EXPORTS
IN 2013

The South Eastern and Eastern Europe Clearinghouse for the Control of Small Arms and Light Weapons (SEE-SAC) has a mandate from the United Nations Development Programme (UNDP) and the Regional Cooperation Council (RCC) to support all national and international stakeholders by strengthening national and regional capacity to control and reduce the proliferation and misuse of small arms and light weapons, and thus contribute to enhanced stability, security and development in South Eastern and Eastern Europe.

INTRODUCTION

The possibility of producing a regional annual report on arms exports for South East Europe was discussed at the EU outreach events in Serbia (December 2007) and Slovenia (May 2008). Under the auspices of SEESAC, an agreement was reached to produce a regional report at a conference in Montenegro (June 2009).

All states in the region have already produced national reports that contain detailed information on their arms exports and with the support of SEESAC, thirty four (34) reports have been translated into English language and printed. These national reports should remain the primary source of information on each country's arms exports.

The production of a regional annual report on arms exports is intended to help to consolidate the gains in transparency that have already been made in the region, while also demonstrating an ability and willingness to uphold the commitments associated with the Council Common Position 2008/944/CFSP defining common rules governing control of exports of military technology and equipment.

The report is a practical example of successful co-operation within the framework of the Regional Co-operation Council (RCC). Moreover, the report is evidence of the existing administrative capacity in the region and the desire to further comply with EU policies in the field of export controls.

The present report contains detailed information on arms exports of Albania, Bosnia and Herzegovina, Croatia, Montenegro, Serbia, and the former Yugoslav Republic of Macedonia during 2013. A single, unified method for data collection and reporting has been used by all six participating countries and it includes the number and value of all arms export licences issued in 2013, as well as the value of all exports which were realized based on those licences, regardless of whether the utilization took place in 2013 or 2014.

Furthermore the report contains data on transfers to United Nations-mandated or other international missions, key national legislation governing arms transfers, details of regional activities in which at least two states in the region have participated and contact information for different ministries tasked with controlling transfers of conventional weapons.

The production of the regional report was made possible through the generous support of the Ministry of Foreign Affairs of the Kingdom of Norway, through the SEESAC implemented project *Support for an Arms Control Programme in the Western Balkans – Phase II*.

The Information on Conventional Arms Exports by Albania, Croatia, Bosnia and Herzegovina, Montenegro, Serbia, and the former Yugoslav Republic of Macedonia, based on the licences issued in the period from 1 January to 31 December 2013. The attached tables contain the following information:

- I. BRIEF DESCRIPTION OF EU COMMON MILITARY LIST CATEGORIES**
- II. TABLES SETTING OUT EXPORTS PER DESTINATION, PER REGION AND WORLDWIDE**
 Figures are broken down by State, and where possible by EU Common Military List category ⁽¹⁾, where (a) = number of licenses issued, (b) = value of licenses issued in Euros and (c) = the value of arms exports in Euros ⁽²⁾ ⁽³⁾ ⁽⁴⁾

1 See page 9 below for brief descriptions of Military List categories.

2 In many cases, transfers of controlled goods may pass through two or more states covered by this report before being delivered to their final destination. For this reason, there is likely to be a considerable amount of 'double counting' in this report, with the same transfer being reported multiple times by different states. The report should not, therefore, be used to generate an estimate of the combined value of the region's arms exports.

3 To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows deleted.

4 Concerning the Republic of Serbia:

The Annual Report of the Republic of Serbia includes, inter alia, data on arms exports broken down by export destination – i.e. the country of the buyer, together with the data on the end-user country - while agreed method in the Regional Report is to have data broken down only by end-user country. For this reason, data from the Annual Report of the Republic of Serbia may be different from the data published in the Regional Annual Report.

The Republic of Serbia's national regulations allow for situations where a number of different products - which may cover a range of different control categories - are attached to one license. Such transfers have been marked with a single asterisk ().*

5 Concerning Montenegro

*Montenegro's national regulations allow for situation where a number of different products, which may cover a range of different control categories are attached to one license. Such transfers have been marked with two asterisks (**).*
