REGIONAL REPORT
ON ARMS EXPORTS IN 2018

The South Eastern and Eastern Europe Clearinghouse for the Control of Small Arms and Light Weapons (SEESAC) has a mandate from the United Nations Development Programme (UNDP) and the Regional Cooperation Council (RCC) to support all national and international stakeholders by strengthening national and regional capacity to control and reduce the proliferation and misuse of small arms and light weapons, and thus contribute to enhanced stability, security and development in South Eastern and Eastern Europe.

INTRODUCTION

The decision to produce the regional annual report on arms exports for South East Europe was made in July 2009 in Montenegro, at the “Conference on a Regional Report on Arms Exports” facilitated by SEESAC. On this occasion, representatives of Albania, Bosnia and Herzegovina, Montenegro, North Macedonia and Serbia agreed on a methodology and committed to publish their arms exports data in a joint publication. Following, the first report was published in December 2009. In 2012, Croatia began contributing its data as well, making the *Annual Report on Arms Exports in 2010* first six-state effort.

The participating states had, at that time, already been producing national reports that contained detailed information on their respective arms exports. Since 2007, with the support of SEESAC, thirty-nine (39) of these reports have been translated into English language and printed. The national reports should remain the primary source of information on each country’s arms exports.

The production of a regional annual report on arms exports is intended to help to consolidate the gains in transparency that have already been made in the region, while also demonstrating an ability and willingness to uphold the commitments associated with the Council Common Position 2008/944/CFSP, defining common rules governing control of exports of military technology and equipment. By contributing to confidence building, through regional cooperation, the Report perfectly aligns with the core purpose of the Arms Trade Treaty (ATT), which all five states are a party to. The report is a practical example of successful cooperation within the framework of the Regional Co-operation Council (RCC).

The present report contains detailed information on conventional arms exports of Albania, Bosnia and Herzegovina, Montenegro, North Macedonia and Serbia during 2018. A single, unified method for data collection and reporting has been used by all five participating countries and it includes the number and value of all arms export licenses issued in 2018, as well as the value of all exports which were realized based on those licenses, regardless of whether the utilization took place in 2018 or 2019.

Furthermore, the report contains data on transfers to United Nations-mandated or other international missions, key national legislation governing arms transfers, details of regional activities in which at least two states in the region have participated, and contact information for different ministries tasked with controlling transfers of conventional weapons.

While Croatia partook in the compilation of four Regional Reports on Arms Exports covering years 2010 through 2013, following its accession to the European Union on 1 July 2013, Croatia began contributing its data to the EU’s Annual Report on Arms Exports instead. Furthermore, starting with the report covering year 2014, Croatia is listed under the European Union countries.

The publication of the Regional Report on Arms Exports in 2018 was made possible by the contribution of the European Union, through the EU Council Decision (CFSP) 2019/2111 in Support of SEESAC Disarmament and Arms Control Activities in South-East Europe reducing the threat of illicit small arms and light weapons and their ammunition adopted within the framework of the EU Strategy to Combat Illicit Accumulation and Trafficking of SALW and their Ammunition.

ANNEXES

The information on Conventional Arms Exports by Albania, Bosnia and Herzegovina, Montenegro, North Macedonia and Serbia based on the licenses issued in the period from 1 January to 31 December 2018. The attached tables contain the following information:

- I. **BRIEF DESCRIPTION OF EU COMMON MILITARY LIST CATEGORIES**
- II. **TABLES SETTING OUT EXPORTS WORLDWIDE, PER DESTINATION AND PER REGION**
 Figures are broken down by state, and where possible by EU Common Military List category, where (a) = number of licenses issued, (b) = value of licenses issued in Euros and (c) = the value of arms exports in Euros ⁽¹⁾ ⁽²⁾ ⁽³⁾ ⁽⁴⁾
- III. **TABLE SHOWING EXPORTS TO UNITED NATIONS-MANDATED OR OTHER INTERNATIONAL MISSIONS IN 2018**

¹ *In many cases, transfers of controlled goods may pass through two or more states covered by this report before being delivered to their final destination. For this reason, there is likely to be a considerable amount of 'double counting' in this report, with the same transfer being reported multiple times by different states. The report should not, therefore, be used to generate an estimate of the combined value of the region's arms exports.*

² *To make the table more readable, nil values are omitted, and empty rows deleted.*

³ **Concerning the Republic of Serbia:**

The Annual Report of the Republic of Serbia includes, inter alia, data on arms exports broken down by export destination – i.e. the country of the buyer, together with the data on the end-user country - while agreed method in the Regional Report is to have data broken down only by end-user country. For this reason, data from the annual report of the Republic of Serbia may be different from the data published in the Regional Report on Arms Exports.

The Republic of Serbia's national regulations allow for situations where a number of different products, which may cover a range of different control categories, are attached to one license. Such transfers have been marked with a single asterisk ().*

⁴ **Concerning Montenegro:**

*Montenegro's national regulations allow for situation where a number of different products, which may cover a range of different control categories, are attached to one license. Such transfers have been marked with two asterisks (**).*
