# Draft Budget Tables Fiscal Year 2022/23

## Ministry of Finance and Planning Republic of South Sudan

July 2022 grss-mof.org

#### Forward

It is with great pleasure that I introduce the Draft National Budget for FY 2022/2023. The Budget includes a Macroeconomic outlook and objectives such as price stability and Government policy priorities for stabilizing the economy and reducing inflation which has implications for the Government and society as a whole. The Government is committed to achieving and maintaining macro and micro-economic stability to achieve sustainable development and broad economic growth, Combating COVID-19, and consolidate peace as well.

The Draft National Budget is based on data collected from National Institutions such as; the Ministry of Petroleum, the National Bureau of statistics, and the Bank of South Sudan with the analysis from the Directorate of Budget and Revenue, Macro Planning and Aid Coordination, we were able to estimate and project our Resource envelope for the FY 2022/2023 National Budget.

The Government experiences challenges during the execution of FY 2021/2022 due to some shortfall in our financial position which is aggravated by the Global Pandemic (COVID-19) and the tremendous impact on trade and the prices of oil. However, there were some successes as well, including continued construction of the Interstates roads as a promise to our people, reduction in salary arrears, no more borrowing from the Bank of South Sudan (Overdrafts), and we can contain Government Spending on salaries within collections from Taxes.

The significant global recovery from the Pandemic (COVID -19) and Ukraine-Russian war is showing an upwards trend in oil prices and global trade. The Government can meet some important National projects, such as roads and infrastructure projects. Tax revenue has shown a substantial improvement, estimated at **SSP 117 billion** due to the reform policy action implemented by the Government through the establishment of the National Revenue Authority.

The estimated National Revenue will fund the planned Government expenditures for the FY 2022/2023. Currently, we are managing the long accumulated salary arrears to ensure it is brought to a minimum and since we have stopped borrowing from the Bank of South Sudan, we will scale down the rate of inflation.

Plans are underway to reduce National debt, we will avoid circumstances that compel us to borrow both internally and externally.

Your Excellency, the President, First Vice President, Vice Presidents, Hon: Ministers, the FY 2022/2023 Draft National Budget I present to you today has placed an important focus on Stabilizing the economy, revitalized Transitional peace agreement, Vital infrastructure projects and is a reflection of key issues as stipulated in the National Development Strategy which addresses issues of concern to the Nation of consolidating peace, maintain security and stabilizing the economy.

In addition we are working extra harder to broaden our tax base and tax administration as the basis of financing Government expenditures.

Agak Achuil Lual The Minister RSS – Juba.

#### 1. EXTERNAL ECONOMIC ENVIRONMENT

#### 1.1 GLOBAL ECONOMIC SITUATION

The global economy is recovering from the COVID-19 pandemic, the warfare in Ukraine sat an additional setback to the continuing global economic recovery. These shocks had triggered rise in the global commodity prices and slow-movement of economic activities by war induced supply chain distraction is practically being witnessed in the global economies.

According to the recent update on the World Economic Outlook in April, the Global growth is projected to slow from an estimated 6.1 percent in 2021 to 3.6 percent in 2022 and 2023. This is 0.8 and 0.2 percentage points lower for 2022 and 2023 respectively as projected in January. Beyond 2023, global growth is forecasted to decline to about 3.3 percent over the medium term.

War-induced commodity price increases and broadening price pressures have led to 2022 inflation projections of 5.7 percent in advanced economies and 8.7 percent in emerging market and developing economies—1.8 and 2.8 percentage points higher than projected last January. Multilateral efforts to respond to the humanitarian crisis, prevent further economic fragmentation, maintain global liquidity, manage debt distress, tackle climate change, and end the pandemic are essential.

#### Table 1.1 depicts the global growth scenario at a glance:

#### 1.2 DOMESTIC ECONOMIC DEVELOPMENTS

The South Sudan economy is likely to slow in FY 2022-2023. The provisional estimate is to grow by 3.3 percent which is at a 0.9 percent higher than the previous fiscal year 20221-2022 (4.5 percent). We see three headwinds facing the South Sudan's economy the coming years: firstly, we expect investment in South Sudan to slow due to high commodity prices. South Sudan is a net importer of almost everything including energy and commodities-higher commodity prices will lead to higher import bill and weigh on savings and therefore investment. Furthermore, higher inflation induced by higher commodity prices has pushed central banks around the world to tighten their monetary policy.

Secondly, we believe that, the slowing global economic back drop will also weigh on South Sudan's economy, though the impact of growth is less significant on the other export-oriented economies.

Lastly, the outbreak of the Russian-Ukraine war will lead commodity prices to surge. We expect prices to stay elevated through the end of 2022 before moderating slightly in FY 2023-24. This will put upside pressure on inflation globally and will erode consumer purchasing power. The impact is more acute in South Sudan than in developed markets as food and energy account for 72.0% of it CPI basket.

Table 1 details the key macroeconomic assumptions underlying the macroeconomic policy framework for FY 2022/23 and the medium term.

MACROECONOMIC PARAMETERS	2021/22 (f)	2022/23 (f)

#### 1.3 ANNUAL INFLATION PERFORMANCE & OUTLOOK

The annual growth of inflation rate is targeted to be 2.4 percent for the FY 2022-23 and 6.3 percent growth rate is being expected by the end of period by June 2022-2023. Inflationary pressure has been building up in recent months as domestic and imported food prices continue to rise due to limited supply and higher transport costs.

#### 1.3.1 INFLATION OUTLOOK

The near-term inflation is expected to remain elevated for three reasons. First, prices temporarily depressed by the pandemic will continue to rise as COVID infections unwind and the economy recovers. Second, supply-chain bottlenecks are likely to persist well into 2022. Third, significant labor shortages will continue generating upward pressures on wages and thus goods and services prices.

In the longer term, as supply-chain disruptions subside, inflation within some consumer price categories is expected to ease. Shifts of spending back toward services should also ease demand for goods and restrain goods inflation. Meanwhile, the dollar is likely to strengthen as the Federal Reserve tightens monetary policy, putting downward pressure on the cost of imports and indirectly on the prices of domestic goods. In addition, energy

prices are expected to recede from their multi-year highs, becoming a drag on inflation.

#### 2. FISCAL DEVELOPMENTS

#### 2.1 RESOURCES

Total resource is estimated at SSP 832.8 billion as per the approved budget for the FY 2022-23 accounting for 29 percent growth rate from the previous estimate FY 2021-22. Of which, the government oil revenues is SSP 715.8 billion contributing a growth rate of 21 percent. Of which, the government nonoil revenues (Taxes) is estimated at SSP 117 billion with tax revenue accounting for 101 percent growth doubling the previous estimate and non-tax revenue is estimated to register SSP 1.1 billion accounting for loss of -61 percent growth from the previous 12 month 2021-22 period. While the remaining is from external grants.

**Table 3.1.1 Revenue Performance** 

Revenues Performance and Outlook	In billion SSP				
Financial Year	2021/22	2022/23			
Particular	Proje	ection	Variance	% growth	
1 Total Revenues	647,4	832,8	185,4	29

Source: Ministry of Finance & Planning, MoP, NRA

#### 2.2 EXPENDITURE

The highly uneven incidence of flooding, and infections coupled with varied public health responses has alleviated the expenditure. The total expenditure outlay for the current FY 2022-23 as per the approved budget is SSP 1.4 billion (74%), of which Other Mandatory Expenditures is SSP. 545.349 million (85%) and SSP. 664.393 million (97%) is the recurrent expenditure and Capital expenditure is SSP 120.733 (154%).

The requirement for the current budget has increased due to emerging priorities, it has been rationalized and adjusted to maintain within the estimated domestic revenue. The capital expenditure allocated for the current FY2022-23 is the highest annual allocation mainly to stimulate economic stability through resilient recovery.

Therefore, given the size of the capital expenditure, close monitoring of capital works needs to be carried out to ensure capital budget is fully utilized for development projects.

#### 2.3 FISCAL BALANCE

Considering a likely shortfall scenario for domestic revenue, the fiscal deficit is estimated at -7 percent of GDP amounting to SSP. -558.660 million in FY 2022-23. The fiscal deficit may need to be financed largely through domestic markets and external sources, the fiscal deficit as percent of the GDP is expected to elevate further as the government is gearing toward the expansionary fiscal policy considering the setback of the lockdown, flood, and other shocks that may arise.

**Table 2.3 Expenditure**

#### 2.4 PUBLIC DEBT STOCK

Table 2.4 Debt Situation (to be included and elaborated when data is correctly analyzed)

#### 2.5 FISCAL POLICY TARGET AND STATEMENT FY 2022-23

#### 2.5.1 Overview

Globally, the Russia-Ukraine war, the COVID-19 pandemic, flooding and the recent intensification in the global commodity prices have prompted an unprecedented fiscal response to support the emerging global and domestic concerns. The contraction in output and ensuing fall in revenues resulted in increased government's deficits and financing requirements. The objective of this fiscal policy is to; fully implement peace, Improve on agriculture to stabilize the economic growth without compromising macroeconomic stability and debt sustainability. The macroeconomic strategy therefore, is to enhance returns from public investment through implementation of policies that boost efficiency in public investment, increase domestic revenue mobilization efforts and maintain price stability.

Therefore, the fiscal stance for the FY 2022-23 takes an expansionary approach to propel the economy towards a recovery path.

#### 2.5.2 FISCAL POLICY

The Government shall maintain sustainable fiscal balance through effective management of public finance in line with PFM, while pursuing an expansionary fiscal stance. As a prudent financing strategy and to ensure debt sustainability, the Government shall resort to borrowings at lowest possible costs only after exhausting the possibilities of obtaining the required financing in the form of grants

#### 2.5.3 Fiscal Policy Targets

In keeping with the fiscal policy statement, maintaining appropriate fiscal support remains critical to ensure that the recovery does not unravel, but with an eye toward sustainability and longer-term objectives. Hence, FY 2022-23 budget aims to fulfill the fiscal objectives by setting the following fiscal targets:

- a. Contain fiscal deficit below 5 percent of GDP;
- b. Minimum GDP growth of 3 percent;
- c. Tax to GDP ratio of at least 12 percent;
- d. Recurrent expenditure to be covered by domestic revenue; and
- e. Public debt maintained below 35 percent.
- f. Improve on agriculture
- g. More emphasis on Health and Education

To achieve the above policy targets for FY 2022-23, the Government will pursue the following strategic measures:

#### 2.5.4 Strengthen Resource Mobilization

As the economy bounces back from the unmatched economic downturn, domestic revenue performance is expected to improve. In addition, the Government will continue to mobilize additional resources such as grants, concessional borrowings, and other sources including new and innovative financing windows.

Domestic revenue has always covered current expenditure and some portion of capital expenditure. Given its importance, the Government will continue to strengthen tax administration to enhance compliance and revenue collection. Considering the impact of the pandemic on businesses and personal incomes, the Government will review tax exemptions, deferrals, and waiver of specific fees and charges and implement targeted fiscal measures to ensure business continuity and growth.

With these measures, the domestic revenue for FY 2022-23 is estimated to improve further in the near term.

#### 2.5.5 Expansionary Fiscal Stance

In order to ensure 'Sustained Economic growth and Stability for a Resilient Recovery' expansionary fiscal stance has to be adopted. Accordingly, at least a higher percent of the planned capital outlay has to be allocated for the FY 2022-2023 to ensure that the central government budgetary bodies receive adequate capital budget for priority activities to support resilient economic recovery.

#### 2.5.6 Stimulating Aggregate Demand

The government is planning to allocate a considerable fiscal stimulus to support

economic activities, boost private sector participation, generate employment and improve aggregate demand. The Government will continue to provide budget in the form of annual grants to the State Government and block grants to the Budgetary Central government Bodies to provide flexibility, ownership and accountability in budget execution.

In addition, the targeted fiscal and monetary measures will be continued to ensure business continuity. However, in case of any unforeseen shock may affect capital budget utilization that may slow down consumption and aggregate demand.

#### 2.5.7 Sustainable Level of Fiscal Balance

Maintaining fiscal balance at a sustainable level has always been the key anchor of the fiscal policy. In line with this goal, average fiscal deficit for the last two fiscal years has been contained within 4 percent of GDP For the FY 2021-22, considering the need for high level of investment in the economy to support economic recovery, the estimated fiscal deficit is -3 percent of GDP. However, the fiscal target is to contain within 5 percent of GDP to ensure sustainable fiscal balance and debt sustainability through optimal utilization of the budget besides mobilizing additional resources.

#### 2.5.8 Managing Public Debt

The public debt management is guided by the constitutional mandate of ensuring "that the servicing of public debt will not place an undue burden on future generations."

The government will prioritize borrowing from external concessional windows to lower the financing cost, while meeting balance funding needs from the domestic market if need be and therefore, the government will continue managing public debt in such a manner that the public sector's financing needs and debt service obligations are met in a timely manner, at the lowest possible cost to ensure that the financing decisions are prudent and public debt is maintained at a sustainable level.

#### 2.2.2 Macro-Fiscal Framework Statement (MFF)

The MFF provides a macroeconomic assumption for two-three years based on macroeconomic updates considering the emerging international or domestic shocks like flooding, impact of COVID-19 and external-domestic warfare.

The framework also consists of fiscal outcomes for the last ten fiscal years and estimates

for the current year. The targets formulated for revenue and expenditure are serve as a basis for determining the FY 2022-2023 resource envelope for a sustainable fiscal path. Hence, the MFF is an important tool for fiscal policy and fiscal management, promoting fiscal discipline and transparency, thereby ensuring appropriate resource allocation and forecast beyond the annual planning horizon.

However, in the medium term, the fiscal balance is projected to be in discrepancy mainly due to scarce resources, as a result of projected fiscal balance of -802 million SSP (-4 percent of GDP) in FY 2021-22 and -1.4 billion SSP (-3 percent of GDP) is projected for FY 2022-23 respectively.

With the contraction in output vis-à-vis economic activities during FY 2021-22, capital investment activities are expected to be front-loaded during FY 2022-23, hence the external grants for the outer years are projected to remain zero unless additional resources are mobilized.

**Sector: Economic Functions** 

(EC) Electricity Cooporation

## **Budget Highlights**

The budget (2022/2023) although it is very below the expectation for the activities, it can be improved with economic trend. SSEC is almost running down due to lack of fuel and spareparts. Training programs shall be intensified as this institution is in high demand of trained skills during this fast technological advancement. Repairs and maintenance are crucial for SSEC operation in all power plants across the country. Whithout tools and parts for engine overhaul, there would be no meaningfull activities in the SSEC. It is prudent to atleast carryout tests on machines and the redundant network in order to review utility works.

### **Programme Conditional Transfers Details for FY 2022/23**

WASH Transfers to Counties, Administrative Areas and States

### **Purpose of Conditional Transfers**

To support Directorate of Water and Sanitation in the States, Administrative Areas and Counties Departments to cover salaries of qualified WASH personnel and operating costs.

### **Description:**

To support Ten (10) staff in the Directorate of Water and Sanitation in each of the ten states and three Administrative Areas.

To support Five (5) staff in the Department of Water and Sanitation in the Seventy-nine counties plus Abyei

### **States and Administrative Areas Allocation Principles**

Conditional salary transfers – Equal allocation across the ten states and three administrative areas.

Operating transfers – 50% allocated equally across the ten states and three administrative areas and 50% based on population.

### **Counties Allocation Principles**

Conditional salary transfers – Equal allocation across the Seventy-nine counties plus Abyei

Operating transfers – 50% allocated equally across Seventy-nine counties plus Abyei and 50% based on population.

Sector: Block Transfers Finance & Planning

# **Programme transfers details: Block transfers to States**

#### **Block Transfers**

### **Purpose of Transfers**

State block transfers are unconditional resources and as such can be used for any type of expenditures given an approved budget for the state government. The block transfers are intended to cover States' core functions and to allow resource allocations to reflect States' priorities.

The national government also provides conditional transfers for key service sectors, and block transfers for counties. However, these are only contributions towards funding services which State and local governments are responsible for.

States are therefore encouraged to allocate funds from their discretionary resources – state block transfers, STAG and their own revenues – to supplement funding for priority sectors and to ensure that local governments are as adequately funded as possible.

### **Allocation Principles**

As agreed with the Fiscal and Financial Allocation and Monitoring Commission, 60% of the total amount is divided in equal shares across the 32 states, and 40% based on the population of each of these states as per the approved projections of the National Bureau of Statistics.

The county development fund will be allocated as and when funds are available.

### Sales Tax Adjustment Grant Transfers

#### **Purpose of Transfers**

The STAG (Sales Tax Adjustment Grant) is a form of block transfers given to the states as a share of STAG are estimated, but actual STAG transfers are based on actual sales tax collection.

#### **Allocation Principles**

Estimates for STAG are calculated in two steps: 1) sub-totals are calculated using consumption data and other agreed distributive factors available for the ten former states; 2) the sub-totals estimated in this way are distributed farther to the new states based on the same formula as for the block transfers that is, 60% equal share and 40% based on each new state's population.

Sector: Block Transfers Finance & Planning

# Programme transfers details: Block transfers to counties

### **Purpose of Transfers**

County block transfers supplement resources that states pass onto counties from their discretionary resources, to ensure that counties are funded to some extent. At the state level, county block transfers are not discretionary – they must be passed on in full to county governments. At county level, the block transfers are unconditional resources and as such can be used for any type of expenditures given an approved budget for the county government. The block transfers and any additional resources sent by States are intended to cover Local Governments' core functions.

#### **Allocation Principles**

60% of the total amount is divided in equal shares across the 79 former counties, and 40% based on the population of each of these counties.

The county development fund will be allocated as and when funds are available.

(SSRA)Revenue Authority

**Sector: Economic Functions** 

Minister: Dr. Patrick Mugoya Accounting Officer: Hon. Africano Monday

# **Strategic Objectives**

To mobilize non-oil revenue in an efficient, transparent, and accountable manner

## **Priority Actions:**

### Task 1: Establishment/Operationalization of NRA

#### Activities:-

- 1 Develop Policy, legal framework and strategic plan
- 2 Screen, Recruit and Train SSRA staff
- 3 Acquire Assets and Equipment

#### Task 2: Development of Centralized ICT System

#### Activities:-

- 1 Procure revenue collection System and Installation
- 2 Integrate various systems related to Revenue collection
- 3 Procure Internet services

#### Task 3:

### Activities:-

- 1 Preparation of Annual budget and Financial Act
- 2 Revenue projection/Revenue Forecast for determining resource envelope
- 3 Formal consultation with stakeholders
- 4 Proposal of Tax Rates, Duties, and fees

(SSRA)Revenue Authority

Minister: Dr. Patrick Mugoya Accounting Officer: Hon. Africano Monday

## **Overview**

### **Mission Statement**

Our mission is to mobilise non-oil revenue in a transparent, accountability, impartial, effective and efficient manner by providing unique quality taxpayer services that combine performance with values".

#### **Budget Highlights**

I.90.5% of MoGEI's budget has been allocated to Salary, Operating and Service Delivery Units (schools) transfers – showing prioritization of service delivery.

II. Operating transfers to states and counties have been increased by 2.92 times.

III. Teacher Incentive Transfers for retention of TTI, TVET, ECD, Primary and Secondary School Teachers have been maintained to aid retention of school teachers.

IV. MoGEI has also prioritized monitoring & oversight activities, including school inspection.

V.To strengthen retention, priority is also given to school feeding through maintaining the school feeding/farming programme.

VI. Salary transfers to States and Counties ensure qualified education staff are paid at the pay scale indicated by the Ministry of Public Service.

- I. 90.5% of MoGEI's budget has been allocated to Salary, Operating and Service Delivery Units (schools) transfers showing prioritization of service delivery.
- II. Operating transfers to states and counties have been increased by 2.92 times.
- III. Teacher Incentive Transfers for retention of TTI, TVET, ECD, Primary and Secondary School Teachers have been maintained to aid retention of school teachers.
- IV. MoGEI has also prioritized monitoring & oversight activities, including school inspection.
- V. To strengthen retention, priority is also given to school feeding through maintaining the school feeding/farming programme.
- VI. Salary transfers to States and Counties ensure qualified education staff are paid at the pay scale indicated by the Ministry of Public Service.
- VII. To further strengthen retention of teachers and their managers, MoGEI introduced a teacher betterment allowance. This has been included in the National, State and County Salary budgets and is to apply to teachers and their managers.
- VIII. Allocation for Capitation Grants has also been increased in line with a medium-term plan to restore the grants to their 2014 values.
- IX. 9.48% of the MoGEI budget has been allocated to Capital.

Sector: Education General Education & Instruction

# **Programme transfers details: Basic Education**

#### **Purpose of Transfers for Basic Education**

The purpose of the transfers to counties for basic education is to facilitate the day-to-day management of education delivery in Early Childhood Development (ECD), primary schools and Alternative Education Centers, with special consideration for special needs and gender equity.

#### **Description of Transfers for Basic Education**

**Salary:** Salaries and allowances for classified county-based education staff on SSEPS. For 2022/23 Budget, this includes Teacher betterment allowances set aside for all staff on the payroll.

Operating: Running Costs of the County Education Department and Payam Education Offices and their functions.

#### **Transfers for Service Delivery Units:**

**Capitation Grants** for Primary, ECD and ALP schools are funded by the Government. The capitation grants finance basic running costs including stationery and school supplies, school maintenance and minor repairs, extracurricular activities, and transport.

**Teacher Incentives**: ECD and Primary teacher incentives have been included in the budget. These grants cannot be used to pay non-teaching staff.

#### **Allocation Principles**

**Salary:** Due to lack of immediate availability of data from most of the States, transfer allocations for 2022/23 were determined based on MoGEI estimates drawn from the 2021 Education Census (EC) alongside the approved Ministry of General Education & Instruction structure. Amounts are based on the full application of the pay scale approved by the National Government in 2021. The amounts also include additional teacher betterment allowances – which will be applied to all staff on the payroll.

**Operating:** 60% of the total is shared equally across the counties and the remaining 40% is a variable component based on number of primary + ECD+ ALP schools in each county. The allocations of all counties in a State are summed up to form the budget allocation for county operating transfers for that State.

**Capitation Grants:** Each school will receive a base allocation and a per student allocation of Capitation Grants. The per school and per student amounts are fixed by the ETMC and reviewed for each school year, and are specified in guidelines sent to schools, and County and State education authorities.

In the school year 2022/23 the Capitation grants shall be paid in two tranches to any school that passes six MoGEI-agreed requirements and has provided accounting for all funds previously received. Schools will have to account for the previous tranches before they would receive further funding.

**Teacher Incentives:** The ETMC shall approve Teacher Incentives for the ECD, Primary & ALP Schools that shall qualify (i.e., meet the Capitation Grants requirements, have HRIS enrollment of staff, teacher attendance reporting on SAMS, and account for previous funds). Teacher Incentives shall be dispatched in three-month tranches, or as determined by the MoGEI through the ETMC.

## Sector: Education General Education & Instruction

# Programme transfers details: Post-primary education

#### **Purpose of Transfers for Post-Primary Education**

The Purpose of the transfers to States for post-primary education is to enable them to provide oversight, coordination and dissemination of policy for education delivery at the County level and to facilitate delivery of secondary education, TVET and Teacher training.

#### **Description of Transfers for Post- Primary Education**

**Salary:** Covers salaries and allowances for classified staff at SMoEs, Secondary Schools, TVET centers and Teacher Training Institutes. MoGEI provides salary transfer funding for teacher salaries, and not for non-teaching/unclassified staff/ contracted services. For FY2022/23 budget, this includes Additional teacher betterment allowances set aside for all staff on the payroll.

**Operating:** Covers running costs of the SMoEs, TVET centers, including utilities, office supplies, and transportation costs. SMoE duties include, among others: oversight of county delivery, direct management of Secondary Education, TVET, and teacher training, inspection, supervision of private schools and consolidation of statistics.

#### **Transfers for Service Delivery Units:**

Capitation Grants for National Secondary Schools, and TTIs are funded by Government – These institutions are to be paid directly from the National Government and not as part of the transfers to States since National Secondary Schools and TTIs are national Service Delivery Units. The Capitation Grant to TTIs includes grants to CECs. CGs for other Secondary schools are funded by Girls' Education South Sudan (GESS) project. The capitation grants to schools finance basic running costs including stationery and school supplies, school maintenance and minor repairs, extracurricular activities and transport.

In 2022 the Capitation grants may be paid in two tranches to all schools that pass six MoGEI-identified requirements and have provided accounting for all funds previously received. Schools will have to account for these tranches to be eligible to receive funding.

**Teacher Incentives:** Secondary School, TTI/CEC & TVET teachers' Incentives have been budgeted to pay incentives to teachers whom the School Management Committees confirm to be actively teaching. MoGEI will share guidelines with the schools/TTIs/TVETs, and County and State authorities, concerning school access to and management of these incentives.

#### **Allocation Principles**

**Salary:** Due to lack of immediate availability of data from most of the States, transfer allocations for 2022/23 were determined based on MoGEI estimates drawn from the 2021 Education Census alongside the approved Ministry of General Education & Instruction structure. Amounts are based on the full application of the pay scale approved by the National Government in 2021. The amounts also include additional teacher betterment allowances – which are to be applied on all staff on the payroll.

**Operating:** 60% of the total is shared equally across the states and the remaining 40% is a variable component based on number of schools in the State.

### **Transfers to Service Delivery Units:**

Capitation Grants: Each school will receive a base allocation and a per student allocation as capitation grant.

**Teacher incentives**: Schools will receive an amount proportionate to the actual number of teachers confirmed to be teaching in the school and the agreed monthly incentive rate. These are to be paid in three-month disbursements, o or as shall be determined by the ETMC.

The Capitation Grants base and per student allocations together with the monthly incentive rate will be specified in MoGEI guidelines for schools, States and Counties mentioned above. Disbursement shall be done after approval by the ETMC.

# **Strategic Objectives**

Minister: Hon. Dr. Esterina Novello Nyilok Accounting Officer: Mr. Samuel Majur Chap

## Overview

#### **Mission Statement**

South Sudan HIV/AIDS Commission (SSAC) is an independent government institution established in June 2006, through a presidential decree No. 55. It is mandated to initiate, review and formulate HIV & AIDS policies, guidelines and strategies to guide the multi-sectoral national HIV response in South Sudan. To provide national leadership in national planning, supervision of HIV programmes. To advocate and mobilize human and financial resources to strenthen and sustain the national response. To promote, pretect the right of of both infected and affected persons e.g PLHIV, SWS, or phansand etc. It is further mandated to monitor and coordinate the overall HIV/AIDS response in South Sudan in order to ensure effective control of new HIV infections and AIDS related deaths.

### **Budget Highlights**

- (1) Increase in budget and student intake of National Health Science Institutes.
- (2) Tripling of the operating budget for subnational administrative units and service delivery units in an attempt to offset the effect of inflation in services delivery. This applies to SMOH and CHD operating allocations as well as to the PHCC grant and State and County Hospital operating grant.
- (3) On the National level, doubled the operating transfer allocation to the National Health Science Institutes and college of Physicians and Surgeons.
- (4) An increased focus on the retention of Primary Healthcare service delivery staff by introducing new budget lines for the Boma Health Initiative that includes salaries to the Staffs at Bomas level and their operational cost.
- (5) A Budget for the Health Transfer Management Oversight which the Ministry can utilise for purposes relating to overseeing, communicating with, to operationalized the CTMCs effectiveness to follow all the Health transfers to SDUs

Sector: Health Ministry of Health

# **Programme transfers details: Preventative Health**

#### **Purpose of Transfers**

Incentives for Boma Health Initiative teams

To ensure the BHI teams can adequately play their role of linking communities to the health facilities and educating communities on basic preventive health practices.

#### Description

This transfer is to be used to pay incentives to the three members of the Boma Health Initiative teams that will be selected by the community in each boma (based on the bomas recognised in the 2007 census). They will report to and be paid through the nearest PHCC.

#### **Allocation Principles**

The transfers were allocated based on three team members in each boma recognised in the 2007 census, and paid the equivalent of a grade 15 entry salary level.

Sector: Health Ministry of Health

# Programme transfers details: Secondary and Tertiary Health Care

#### **Purpose of Transfers**

Three types

Conditional Salary Transfers (States)

Conditional Operating Grants (States)

Operating transfers to state and county hospitals

To support secondary and tertiary healthcare, State-level oversight of the health sector and the running of County and State hospitals.

### Description

The conditional salary transfers are to be used to pay qualified health workers at State level (in State Ministries of Health and state and county hospitals).

The operating transfers for SMOHs are to be used to fund the operational costs of State Ministries of Health and for them to support the operations of the state and county hospitals adequately.

The operating transfers to state and county hospitals are to be used directly by these facilities to cover the costs of basic daily operations, complemented by the support they should get from the SMOH.

#### **Allocation Principles**

Conditional salary transfers allow states to pay health workers at the pay scale approved by the Council of Ministers in February 2016, split between primary (county) and secondary/tertiary (state) levels. Allocations are based on paysheets sent by some states in 2016, or minimum staffing requirements for state and county hospitals for states which did not send any paysheet information. States' allocations are at least equal to last year's.

SMOH operating transfers are allocated 50% flat, 25% according to number of secondary level facilities, and 25% population.

Sector: Health Ministry of Health

# **Programme transfers details: Community and Public Health**

#### **Purpose of Transfers**

Four types Conditional Salary Transfers (County) County Health Department Operating Grants Operating grants to PHCCs Incentives for PHCCs and PHCUs workers

To fund the delivery of basic healthcare services to the people of South Sudan, and ensure all able to exercise their right to access to free basic healthcare

#### Description

Conditional Salary Transfers are to pay the salaries of staff working at the primary level (including CHD staff members and health workers in PHCCs and PHCUs).

CHD operating grants are to be used for CHD operating costs and for them to support the operations of the PHCCs and PHCUs, in line with the guidelines produced.

Operating grants for PHCCs are to be used by PHCCs for daily operating costs as per the guidelines produced. The grants are paid only to PHCCs having met a number of conditions and continuing to report on the use of the transfers.

Incentive transfers are to be used to pay incentives to qualified health workers in PHCCs and PHCUs, who are confirmed to be active by the PHCC Management Committee.

#### **Allocation Principles**

Conditional salary transfers allow counties to pay health workers at the pay scale approved by the Council of Ministers in February 2016, split between primary (county) and secondary/tertiary (state) levels.

Allocations are based on minimum staffing requirements and the number of facilities from newest DHIS data, with an adjustment for most disadvantaged states.

CHD operating transfers are divided 50% flat, 25% according to number of facilities, and 25% population. Operating grants to PHCCs and incentives for PHCCs and PHCUs workers are allocated based on the number of PHCCs in each county, and average number of health workers in PHCC and PHCU.

(CAA) Civil Aviation Authority

Sector: INFRASTRUCTURE

Minister: HON MADUT BIAR YEL Accounting Officer: CAPT. SUBEK DAVID DADA

# **Strategic Objectives**

1. To provide infrastructure Development and Aviation Safety oversight systems

2.

## **Priority Actions:**

### Task 1: Human Resource Management and Development

#### Activities:-

- 1 Recruitment of Staff in critical areas of Air Space Management
- 2 Training and Capacity building of the Staff
- 3 Develop startegy on Human Resource Development
- 4 Establish Training Programme and performance appraisal management
- 5 Conduct promotions, and up grading of the staff

#### Task 2: Infrastructure Development and up garding of five Airport (Aweil, Torit, Yei, Yambio and Bor)

#### Activities:-

- 1 Supervision of ongoing construction of SSCAA
- 2 Fencing of Airports, construction of terminal building and extension of Runways
- 3 Provision of Aviation security equipment and Aviation securityVans(20)
- 4 Provision of Navigation Aid equipment
- 5 Provision of meteorological instruments

### Task 3:

#### Activities:-

- Develop and strengthen relationship with members states in complainces with ICAO for progress on safety oversight systems
- 2 Develop projects and legal framework to improve aviation services
- 3 Develop Civil Aviation Regulatory safety oversight to meet international best practice.
- 4 Applying ICAO Rules and Regualtions in Aviation management system

5 Improvement of Services in the Airports

Minister: HON MADUT BIAR YEL Accounting Officer: CAPT. SUBEK DAVID DADA

# **Overview**

Ministry of Energy & Dams

Sector: INFRASTRUCTURE

Minister: Hon. Peter Marcello Nasir Jelenge Accounting Officer: Hon. Tom Remis John Pitia

# **Strategic Objectives**

1.To produce Project Guidelines Documentations 2.To Conduct Prefeasibility study on priority Power Projects.

### **Priority Actions:**

Task 1: Implementation of 20 MWP + 35 MWP storage system, 135 KV Juba Ring Transmission and substations, 2nd phase Juba Distribution Network.

#### Activities:-

- 1 Transportation and delivery of goods to site
- 2 Moblization and civil works construction
- 3 Design of 33 KV OHTL from Nesitu to Juba
- 4 Seeking financial approval from out of scope activities
- 5 Coordinating the implementation of 2nd phase of the Distribution network and the 132 KV Juba Ring Transmission Line and substations activities

#### Task 2: Project Guide lines Document6ation

#### Activities:-

- 1 Identifying Priority Projects
- 2 Preparing Projects guide lines draft
- 3 Produce the Priority Projects profile document

### Task 3:

#### Activities:-

- 1 Rehabilitation, upgrading, Operation and Management of the Wau Power Station and Distribution Network Project.
- 2 Identification of sparevparts and required Generation Machines
- 3 Design of 11 KV and 0.433 KV Distribution network
- 4 Moblization and civil works construction
- 5 Procurement, Transportation and delivery of equipment to site

Sector: INFRASTRUCTURE Ministry of Energy & Dams

Minister: Hon. Peter Marcello Nasir Jelenge Accounting Officer: Hon. Tom Remis John Pitia

## **Overview**

### **Mission Statement**

To exploit the indigenous and renewable energy sources to produce a reliable , safe, affordable and highest quality power supply to meet socio-economic development needs of South Sudan.

(MRB) Min Roads & Bridges

Sector: INFRASTRUCTURE

Minister: Hon. Simon Mijok Mijak Accounting Officer: Eng. Peter Kuot Jel

# **Strategic Objectives**

Develop, maintain, rehabilitate, and improve roads and bridges in order to ensure improved accessibility and minimize road transport costs

## **Priority Actions:**

## Task 1: Roads Development and Management

#### Activities:-

- 1 Roads studies (Feasibility studies and engineering design)
- 2 Procurement of service providers and Supervision consultants for roads projects
- 3 Construction and maintenance
- 4 Policy and strategy development and Resource Mobilisation
- 5 Conduct assessment of roads, preparation construction and maintenance documents

#### Task 2: Establishment of Roads Research Center and Equipment for the Existing Laboratory

#### Activities:-

- 1 Provide Laboratory Equipment
- 2 Provide store and sample preparation hall
- 3 develop and implement a strategy for the establishment of roads research center in South Sudan
- 4 Prepare proposals and hiring supervision consultant
- 5 Development of Standards and specifications for the road sector

## Task 3:

### Activities:-

- 1 Provide Support services
- 2 Capacity building
- 3 Provision of financial services
- 4 Assets Management

5 Human Resource Management

Sector: INFRASTRUCTURE

(MRB) Min Roads & Bridges

Minister: Hon. Simon Mijok Mijak Accounting Officer: Eng. Peter Kuot Jel

## **Overview**

### **Mission Statement**

To serve the people of the Republic of South Sudan by building high quality and cost effective well maintained roads and bridges which meets their service expectation as well as enhancing their lives now and in the future

(MCA) Min Cabinet Affairs

#### **Budget Highlights**

The Ministry of Cabinet Affairs is responsible to overseeing the activities of executive of the RTGONU expenditures such as expansion of Council of Ministers meeting Hall furnished with modern electronics devices and commputers for additional vice Presidents, Ministers and deputy Ministers. The formation of RTGONU necessitated the mandatory lay-off for some state and the naional constitutional post-holdres to pave the for the incoming new members of the RTGONU. Therefore, the Minitry of Cabinet Affairs has the responsibility to budget a considerable amount to meet post service benefits for the constitutional post holders who didn't make it back to the government.

(NEC) Nat Elections Comm

### **Budget Highlights**

The Activities for 2021/2022 are below, (i) To Conduct civic and Voter education targeting public, civil society groups people with special needs, political parties etc. (ii) To build capacity of election management personnel to give the best practices for conducting free, fair and credible elections in the Republic of South Sudan. (iii) To pay for office rent in the states (iv) To cater for the smooth running of the general administration of National Elections commission. The Ceiling for Fiscal year 2021/2022 could not cover all the items of the budget for this reason NEC has not budgeted for the main office Rent which is 15,000 USD per a month and Ten(10) States and NEC did not included the the Arrears of Rent for three years of the said above offices which amounted to 96, 811,000 South Sudanese Pound with effect of 2019 to June 2021. So we did not enter this amount in our budget this fiscal year because it is a huge amount.

### **Budget Highlights**

With reference to Republican Decree No.26/2013, Dated 20th /Feb/2013 AD issued by H.E. the President of the Republic of South Sudan for the appointment of Full-Time Chairperson and 8 Part-Time Members of Political Parties Council, immediately, after taking the oath of Office, before H.E.LG. Salva Kiir Mayardit, the Full-Time Chairperson and 8 Part-Time members planned and recruited 72 personnel to carry out council activities. Out of which 41 requisite staff had been employed to establish PPC offices as per the structure.

Since, the establishment of PPC (Political Parties Council) in year 2015, no budget was allocated and approved for the PPC. As a result the Office of the President under the department of Policy and Research took initiative and had been paying Staff Salaries from its budget.
