

Military expenditure by country, in local currency, 1988-2019 © SIPRI 2020

Figures are in local currency at current prices and are for calendar years, unless otherwise stated. Countries are grouped by region and subregion.

All figures are expressed in terms of the current currency. In cases where there has been hyperinflation and multiple redenominations of currency, this can mean that figures for earlier years may be only a fraction of a present-day currency unit.

Figures in blue are SIPRI estimates. Figures in red indicate highly uncertain data.

". ." = data unavailable. "xxx" = country did not exist or was not independent during all or part of the year in question.

Numbered footnotes can be found on the Footnotes worksheet.

† Figures for these countries do not include military pensions

‡ Figures for these countries are for current spending only (i.e. exclude capital spending)

§ Figures for these countries are for the adopted budget, rather than actual expenditure

¶ Figures for these countries do not include spending on paramilitary forces

|| This country changed or redenominated its currency during the period; all current price local currency figures have been converted to the latest currency.

The symbols || and || between two parts of a series for a country indicate a series break, where data before the red lines may not be consistent with data after.

Military expenditure by country, in local currency, 1988-2019 © SIPRI 2020

Figures are in local currency at current prices and are for calendar years, unless otherwise stated. Countries are grouped by region and subregion.

All figures are expressed in terms of the current currency. In cases where there has been hyperinflation and multiple redenominations of currency, this can mean that figures for earlier years may be only a fraction of a present-day currency unit.

Figures in blue are SIPRI estimates. Figures in red indicate highly uncertain data.

". ." = data unavailable. "xxx" = country did not exist or was not independent during all or part of the year in question.

Numbered footnotes can be found on the Footnotes worksheet.

† Figures for these countries do not include military pensions

‡ Figures for these countries are for current spending only (i.e. exclude capital spending)

§ Figures for these countries are for the adopted budget, rather than actual expenditure

¶ Figures for these countries do not include spending on paramilitary forces

|| This country changed or redenominated its currency during the period; all current price local currency figures have been converted to the latest currency.

The symbols || and || between two parts of a series for a country indicate a series break, where data before the red lines may not be consistent with data after.

Military expenditure by country, in local currency, 1988-2019 © SIPRI 2020

Figures are in local currency at current prices and are for calendar years, unless otherwise stated. Countries are grouped by region and subregion.

All figures are expressed in terms of the current currency. In cases where there has been hyperinflation and multiple redenominations of currency, this can mean that figures for earlier years may be only a fraction of a present-day currency unit.

Figures in blue are SIPRI estimates. Figures in red indicate highly uncertain data.

". ." = data unavailable. "xxx" = country did not exist or was not independent during all or part of the year in question.

Numbered footnotes can be found on the Footnotes worksheet.

† Figures for these countries do not include military pensions

‡ Figures for these countries are for current spending only (i.e. exclude capital spending)

§ Figures for these countries are for the adopted budget, rather than actual expenditure

¶ Figures for these countries do not include spending on paramilitary forces

|| This country changed or redenominated its currency during the period; all current price local currency figures have been converted to the latest currency.

The symbols || and || between two parts of a series for a country indicate a series break, where data before the red lines may not be consistent with data after.
