# **REPORT ON LICENCES ISSUED FOR TRANSFERS OF ARMS, MILITARY EQUIPMENT AND DUAL-USE PRODUCTS IN 2009**

Sarajevo, May 2010

## SECTION I LEGISLATIVE AND LEGAL FRAMEWORK FOR TRANSFERS OF GOODS OF STRATEGIC IMPORTANCE FOR BIH SAFETY

The field of exports and imports of arms and military equipment and control of imports and exports of dual-use goods in Bosnia and Herzegovina has so far been regulated by the 2003 Law on Export and Import of Arms and Military Equipment and Control of Export and Import of Dual-Use Products, with subsequent amendments in 2003 and 2005. In view of the nature of 2005 amendments, which besides the military goods also regulated dual-use products and technologies, it has been identified that the present solutions are incomplete and unfunctional.

In this context, while assessing the situation regarding the main issues to be regulated in the field of exports and imports of arms and military equipment and control of imports and exports of dual-use products, more than 50% of the main body of the law was identified as needing amendments with the view to adapting the law to the real needs, to the need of full definition and harmonization with the European regulations and standards related to the concepts of services, comprehensive control, and finally with the view to regulating the control of exports of goods that are not included in the current control lists; thus, in accordance with Article 46 of the Universal Rules for Producing Legal Regulations in BiH Institutions, it has been decided to start the procedure of passing a new law.

The new Law on Control of International Transfers of Goods and Services of Strategic Importance for the Security of Bosnia and Herzegovina ("Official Gazette of Bosnia and Herzegovina" no103/09) introduces, inter alia:

- full definition of brokering activities;
- definition of technical assistance services;
- harmonization of the licensing procedure for transit of the goods through BiH with the Law on the Control of Movement of Weapons and Military Equipment inside Bosnia and Herzegovina.
- besides the current two control lists, a national list of special goods;
- the inclusion of the BiH Ministry of Civil Affairs and the State Regulatory Agency for Radiation and Nuclear Security in BiH in the dual-use licensing procedure;
- regulation of the area of responsibility and authorizations of the Ministry in case of denials;
- the Ministry is responsible for overseeing the persons registered for international transfers of goods and services.

The new law will speed up the procedure of licensing international transfers of specific types of goods and will establish controls over specific goods which are deemed as needing control and are not included in the present control lists.

The law has been harmonized with:

- EU Code of Conduct on Arms Exports, which was accepted by virtue of the Decision of the Council of Ministers of BiH number: 235/02 of 02/12/2002, including the Military List and the List of Dual-Use Goods and Technologies,
- EU Council Common Position on the Control of Arms Brokering,
- the Common Action of the Council of Europe on the Control of Technical Assistance Related to Certain Military End-Uses,
- Standards set up by the UN Security Council Resolution 1540 on Non-Proliferation of Weapons of Mass Destruction and the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons.

In the phase of drafting the new Law consultations with all institutions at both federal and entity level that are included in the process have been made. Besides these institutions, the Draft Law was also submitted to the OHR and OSCE, and expert consultations related to harmonization with the regulations and practice of the European Union have been made with the Federal Office of Economics and Export Control (BAFA) and the Stockholm International Peace Research Institute (SIPRI).

The Ministry of Foreign Trade and Economic Relations of BiH issues documents required for the international transfers of goods and services included in the control lists (licenses and International Import Certificate). Depending on the international transfers and classification of goods or services, before issuing documents the Ministry of Foreign Trade and Economic Relations of BiH requires prior consent from :

- a) the Ministry of Foreign Affairs of BiH;
- b) the Ministry of Security of BiH;
- c) the Ministry of Defense of BiH;
- d) the Ministry of Civil Affairs of BiH and
- e) State Regulatory Agency for Radiation and Nuclear Safety.

When issuing their approvals, the competent Ministries take into account the following:

The Ministry of Foreign Affairs of BiH:

- UN, OSCE and EU Security Council embargos and sanctions,
- international commitments, foreign policy interests, specific BiH interests with respect to strategic foreign policy partners,
- EU Code of Conduct on Arms Exports (EU Council Common Position 2008/944/CFSP defining common rules governing control of exports,
- the principle of non-proliferation of weapons of mass destruction.

The Ministry of Security of BiH makes sure that:

- the license is issued in accordance with the security policy of BiH;

The Ministry of Defense of BiH takes care that:

- the license is issued in accordance with the defense policy of BiH;

The Ministry of Civil Affairs of BiH ensures that:

- the issue of a license will not endanger lives and health of people, environment or material goods;

The State Regulatory Agency for Radiation and Nuclear Safety ensures that:

- the procurement of a radiation source will not violate the regulation on radiation and nuclear security.

In accordance with the Law on Control of International Transfers of Goods and Services of Strategic Importance for the Security of Bosnia and Herzegovina, the following transposition regulation have been passed and published:

- Guidelines to the Procedure of Registration of Legal Entities and Private Individuals for International Transfers of Goods and Services of Strategic Importance for the Security of Bosnia and Herzegovina;
- Guidelines to the Conditions and Procedure of Licensing the International Transfers of Goods and Services of Strategic Importance for the Security of Bosnia and Herzegovina;
- Guidelines to the Manner and Procedure of Regulation of Temporary Import, Temporary Export and Transit of Sports and Hunting Weapons and Ammunition;
- Guidelines to Exerting Controls over a Legal Entity or a Private Individual Who Has Been Issued a Document or Who Has Been Registered for the Performance of International Transfers of Goods from the Control Lists;
- EU Council Common Position 2008/944/ CFSP of 8th December 2008 defining common rules governing control of exports of military technology and equipment;
- Common Military List;
- List of Dual-Use Goods;
- List of Special Goods.
