The Honorable Carl Levin
Chairman
Committee on Armed Services
United States Senate
Washington, DC 20510

MAY 17 2012

Dear Mr. Chairman:

Section 1231 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) requires the Secretary of Defense to submit an annual report on foreign military sales and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. This is our final report on this subject based on section 1231 having been repealed by the National Defense Authorization Act for Fiscal Year 2012, section 1062(d).

Enclosed are the FY 2011 foreign military sales of significant military equipment manufactured in the United States. As previously required, only sales in excess of \$2 million are reported.

A similar letter has been sent to the other congressional defense committees.

Sincerely,

Frank Kendall
Acting

REPORT TO CONGRESS ON SALES OF SIGNIFICANT MILITARY EQUIPMENT TO FOREIGN ENTITIES FISCAL YEAR 2011

**Under Secretary of Defense
for Acquisition, Technology and Logistics**

May 2012

Preparation of this report/study cost the Department of Defense
a total of approximately \$8,030 for the 2012 Fiscal Year.
Generated on April 19, 2012 RefID: B-A4E2240

REPORT TO CONGRESS

DEPARTMENT OF DEFENSE SALES OF SIGNIFICANT MILITARY EQUIPMENT TO FOREIGN ENTITIES FISCAL YEAR 2011

May 2012

Under Secretary of Defense for Acquisition, Technology and Logistics

Background

Section 1231 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109-364) requests the Secretary of Defense to submit an annual report to Congress on foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. This is our final report on this subject based on section 1231 having been repealed by the National Defense Authorization Act for Act for Fiscal Year 2012, section 1062(d).

The report is to identify for all sales of significant military equipment in excess of \$2 million, including: (1) the nature of the equipment and the dollar value of the sales; (2) the country to which the equipment was sold; and (3) the manufacturer of the equipment and the State in which the equipment was manufactured. The law defines the term "significant military equipment" as having the meaning given the term in section 47(9) of the Arms Export Control Act (22 U.S.C. 2794(9) note).

The Department of Defense is able to obtain and report information on FMS only. It should also be noted that the data required to satisfy the FMS reporting requirements of section 1231 is not readily available in a single database and must be requested from each of the Components on a manual data call basis. Furthermore, although section 1231 requests data on a calendar year basis, the Department of Defense collects its data on a fiscal year basis. Therefore, the enclosed data reflects FMS purchases for FY 2011.

Information on direct commercial sales is only available through Department of State's Licensing Division. The Department of State has not provided FY 2011 direct commercial sales data for use in this report. Should the State Department provide the data, Defense Procurement and Acquisition Policy will make it available to Congress upon receipt.

FMS Purchases

FY 2011

Sixty countries procured significant military equipment that exceeded \$2 million through the FMS system in FY 2011. The total value of these purchases was \$14.227 billion. These purchases were made through the Army, Navy, Air Force, and DLA. The Army arranged \$10.453 billion in sales. The Navy arranged \$1.049 billion in sales. The Air Force arranged \$2.623 billion in sales. Defense Logistics Agency arranged \$102M in sales. A detailed breakout of the purchases by agency, contract number, manufacturer, dollar value, type of hardware, and state of performance is contained in Appendices 1-4.
